FOUR NEW 1958 J&P 2 NEW HYBRID TEAS!

Sterling Silver

© J. & P. CO.

Sterling Silver (Left)

A new lavender Hybrid Tea with the cool feeling of glistening rich sterling silver when fully open. Tight buds lightly suffused lavender-pink open slowly to 4 to 5-in. flowers with cool silver-lavender as the dominant tone. The fresh, sweet fragrance is unforgettable.

The bush is medium tall and upright, vigorous and free blooming, with leathery dark green foliage.

Originated by Mrs. Gladys Fisher of Woburn, Massachusetts, this is the variety around which is centered the Sterling Bowl Tournament, held annually at our Festival of Roses, at the Newark Rose Garden. (Pl. Pat. #1433.) \$3.00 each; 3 for \$7.95; 12 for \$31.80

Gail Borden

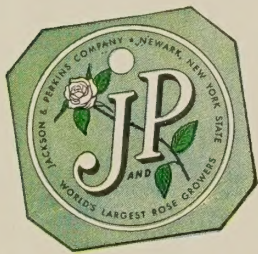

(Below) A large, glamorous Hybrid Tea Rose with a warm combination of pastel pink and yellow outside and lovely glowing apricot on the inside, opens gradually to an immense flower of warm pink. The 5½ to 6-in. flower is entirely different from any other Rose now in use . . . the snap and warmth of the color combination exudes an over-all feeling of friendliness and style. The tall plants are covered with luxuriant, dark shiny foliage that is unusually healthy and handsome. A marvelous Rose to give a new look to gardens. (Pl. Pat. #1618.)

IS YOUR
GUARANTEE
OF COMPLETE
SATISFACTION

OUR Guarantee IS YOUR PROTECTION

OUR GUARANTEE—We offer you only one grade of Roses—the finest. We unconditionally guarantee every plant we ship to be of finest quality, true to name and class, sturdy and free from disease, and to reach you in perfect condition.

We guarantee every plant to flower the next normal blooming period after planting.

We will replace, prepaid and free of charge, any plant which does not perform according to the above guarantee, providing you have carefully followed our directions for planting and care, and providing your report so states and is filed with us on or before August 1 on shipments made the preceding fall or spring.

Send copy of order on which replacements are being made when requesting a replacement.

YOUR RESPONSIBILITY—Roses need comparatively little care—especially the new improved varieties. But they must be given fertile soil, sun and water, and proper cultivation, to keep them vigorous. We send you planting and cultural instructions in each shipment. Follow these and you will be rewarded with healthy growth and prolific blooms.

Fusilier

3

FUSILIER All-America Winner!

(Right) A flaming orange-scarlet with growth and blooming habits that everyone will love! The plant is upright and full, 30 to 36 in. tall, with large, leathery, lustrous, dark green foliage complementing the outstanding color of the flower. Dark red buds slowly open to 3 to 3½-in. flowers, with large attractive petals that are flaming orange-scarlet in warm weather, with dark overtones and an underlying incandescence when the weather is cool. Flowers have up to 40 petals, with margins frilled and ruffled. Fragrant, floriferous and continuous blooming. (Prop. Rights Reserved.)

\$2.50 each; 3 for \$6.60; 12 for \$26.40

GOLD CUP All-America Winner! (Below)

This new All-America Winner for 1958 is a large, deep yellow Floribunda, distinguished for vigor, size, form and productiveness. The pointed buds are deep yellow and open up to 3 to 3½-in., non-fading blooms. The 2½-ft. plants are well clothed with glossy dark foliage, and the bush is constantly renewed by the freely sprouting basal shoots. Never without flowers, this new prize-winner is a welcome addition, with larger, non-fading flowers, glossy foliage and sweet Rose fragrance. It has been generally successful in all areas. (Prop. Rights Reserved.)

**Greetings for
Fall 1957**

from C. H. Perkins

C. H. PERKINS

I wish it were possible for every J&P customer to visit our Rose gardens, our test gardens and our greenhouses here in Newark, New York. They would then realize how much work, time and experience are required to produce the new and better varieties of prize-winning J&P Roses that are offered from year to year.

And this year is no exception. In this catalog you will find three brand-new All-America Winners—Fusilier, Gold Cup and White Knight—and four other wonderful new varieties that are destined to make their mark in the Rose world—Sterling Silver, Arlene Francis, Gail Borden and Royal Gold.

These and all the other favorites like New Yorker, Fashion, Vogue, Golden Masterpiece and many others are presented in this truly magnificent Fall Catalog for your approval. You could not find a wider selection anywhere in the world—the result of more than 85 years of Rose-growing experience.

Look through this catalog carefully, and make up your order as soon as you can for fall planting. We will ship at the proper time for planting in your locality, and we guarantee every plant to grow and bloom in your garden next spring. Plant this fall for better results next spring.

Aida

© J. & P. CO.

AIDA (Left) Rich spectrum-red blooms are deeper and more lustrous in color in the slow-opening buds. Finishing a clear, clean rose-red, the 5-in., semi-cupped flowers are lovely in all their stages. Here is a red Rose that carries its symphony to the end without any clashing notes. These gracefully cupped blooms are richly fragrant from the bud stages until the final petal drops, which greatly enhances the charm of this exquisite Rose. It is wonderful for cutting and arranging indoors, where its full beauty may be completely appreciated. The symmetrical plant will reach a height of 3 ft. and is covered with very attractive, rugged foliage. Named for the heroine of Verdi's most famous opera, this new Rose displays the same majestic grandeur and dark beauty as its namesake. Like the Ethiopian Princess herself, this royal member of roseland will capture your enthusiasm and admiration for many years to come. Plant it this fall and make your garden the envy of the neighborhood. (Pl. Pat. Applied for.)

Pink Lustre

Pink Lustre (Right)

A very large, tall-growing, cool pink Hybrid Tea. It has luxurious high-centered flowers of exhibition size and quality, which open slowly and gracefully. The edges of the petals are a deeper pink, giving a lovely variation. The deep rose-pink, ovoid buds open easily and hold their clear clean color. Foliage is a handsome polished dark green, very uniform and disease resistant. Pink Lustre will be widely used as an exhibition Rose and admired everywhere for its classic form and luminous color. It is a descendant of Peace, which puts it among the blue-bloods of the Rose family. This strong, well-balanced plant comes to us from Holland and was tested here under all conditions and found to be very healthy and impressive. The 2½ to 3-ft. plant will adorn your garden and home with its many lovely blooms. (Pl. Pat. Applied for.)

New Hybrid Teas This Fall!

Why!

HEALTHIER PLANTS

Roses set out now will get their roots well anchored by spring. They will be more vigorous and disease resistant.

MELLOW SOIL

Soil is mellow and more easy to work in the fall, and bare spots in the garden are more easily discernible. Fall rains provide moisture just when the plant roots need it most in getting settled in the soil.

Arlene Francis

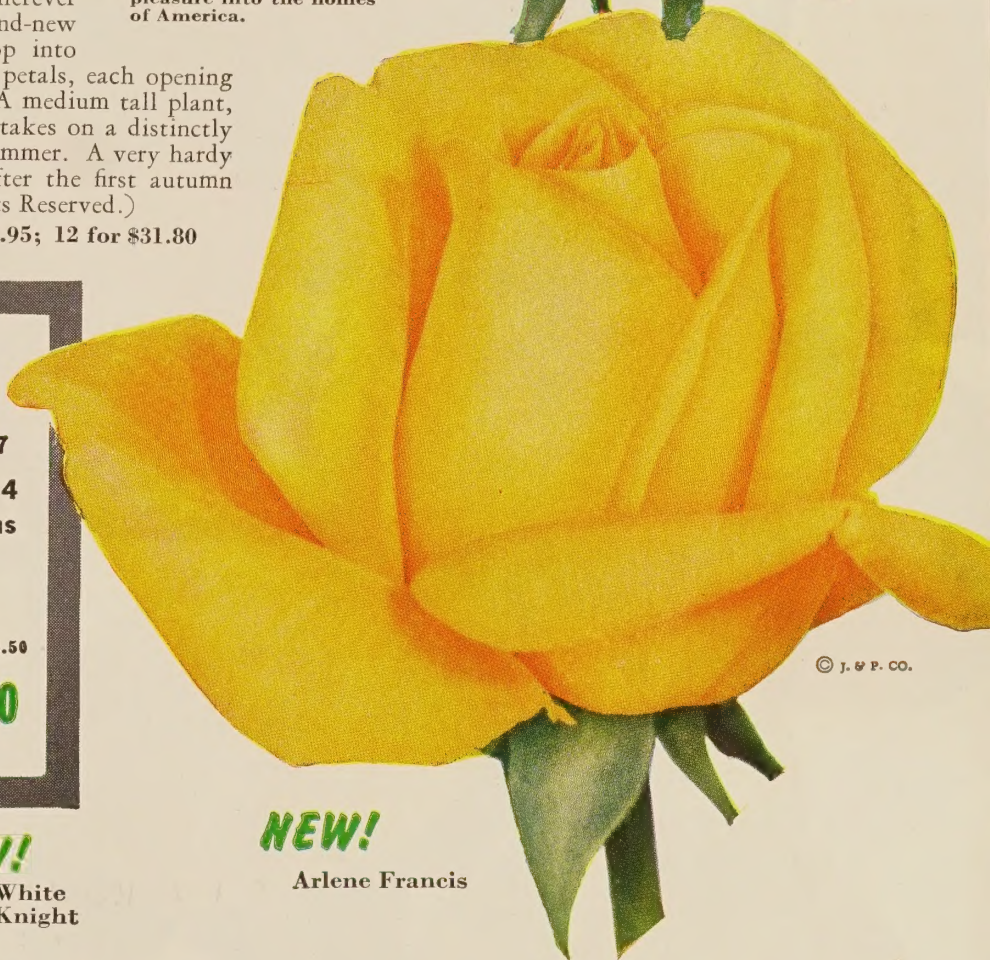

(Right) "My favorite color . . . my favorite fragrance . . . my favorite Rose! It makes such a gloriously sunny picture framing my home."—Arlene Francis.

A golden yellow Hybrid Tea with an unforgettable fragrance has been chosen to bear the name of the equally unforgettable stage and television star, Arlene Francis. This new Hybrid Tea epitomizes all the qualities that Arlene Francis expects in her perfect Rose. This new Rose is vigorous and prolific. It produces masses of flowers, and wherever the plant is cut, it repeats with brand-new shoots. Golden yellow buds develop into flowers which average from 20 to 25 petals, each opening wide to approximately 5 in. across. A medium tall plant, it has glossy dark green foliage that takes on a distinctly reddish tinge toward the end of the summer. A very hardy plant, it continues to bloom even after the first autumn frosts. (Prop. Rights Reserved.)

\$3.00 each; 3 for \$7.95; 12 for \$31.80

Named in honor of the woman whose sunny attitude . . . both on the HOME SHOW and WHAT'S MY LINE . . . has brought beauty and pleasure into the homes of America.

NEW All-America Winner!

WHITE KNIGHT

(Left) For the first time in the history of All-America Rose Selections, top honors go to a white Hybrid Tea. The superb form of the bush and flower, the magnificence of the bloom, the pure satiny white color which does not fade or discolor combine to give the American gardener what he has long been looking and hoping for . . . the perfect white Hybrid Tea Rose. White Knight blooms freely, with each stem generally carrying only one bloom—an outstanding beauty which lasts long either on the bush or in a vase. Unlike other white Roses, White Knight does not "ball," but presents each splendid blossom in gracefully out-curling loveliness . . . perfection in pure white! The plant is very vigorous, growing upright in excellent symmetry to a height of 3 ft. or more. The strong canes and rich leathery foliage give a bushy appearance which is pleasing in itself. Ideal for cutting and unusually disease-resistant. (Pl. Pat. #1359.)

Spartan THE WONDER FLORIBUNDA ROSE!

(Left) What better name than "Spartan" for this amazingly hardy new Floribunda . . . a wonderful J & P creation that captures the glowing beauty and charm of Helen, fairest of women, according to Greek legend . . . together with the sturdiness, endurance and robust health of her compatriots!

The flowers start displaying their stunning beauty early . . . as scores of gorgeous burnt-orange buds begin to appear. Slowly, the buds open to huge, high-centered Hybrid-Tea-shaped blooms with 35 to 40 petals . . . of a sparkling warm ORANGE-RED color, softening to reddish coral . . . with a sweet, old Rose fragrance. The vigorous plant blooms constantly from early spring to severe frost . . . sometimes in clusters, sometimes singly. Enthusiastically acclaimed by testers, Spartan is destined to become one of the most popular Floribundas. (Pl. Pat. #1357.)

GOLDEN FLEECE

Winner of Bagatelle
Gold Medal,
Paris, France!

(Bottom, Left Corner) Such gay-colored buds . . . a lively tawny gold color. Slowly, dramatically they open to a light tone of rich, warm gold . . . then . . . as a grand finale, they flare into a bright, dazzling canary color! The flowers are unusually large for a Floribunda—actually 4 to 4½ in. across . . . growing in graceful clusters with as many as 20 individual blooms! And because Golden Fleece is a descendant of Diamond Jubilee, the blooms are extra long lasting. The vigorous, bushy plant displays unusually decorative, disease-resistant foliage in a medium shade of green. This beautiful winner of the Gold Medal at Bagatelle will be a welcome addition to your garden. Plant it this fall and enjoy its lovely, fragrant blooms for years to come. (Pl. Pat. #1512.)

White Bouquet

All-America
Winner, 1957!

(Below, Left) An enchanting white Floribunda with sparkling 4 to 5-in. flowers and lustrous dark green foliage. The gardenia-like flowers open fully, with petals spreading out to an opulent white bloom, with a sweet spicy fragrance. As the flower slowly unfolds, the center petals at first remain upright, but finally separate and open, to show a small circle of golden yellow stamens. Seen against the smart green foliage, the effect is one of cool freshness and youth. The flowers are constantly produced both in clusters and as individual blooms. Today, White Bouquet is the most popular white Floribunda in the florists' shops, and with the generous quantities of bloom it produces, will be much used as a source of cut flowers in home gardens. Easy to care for and resistant to disease. (Pl. Pat. #1415.)

Betsy McCall

(Below) Like its winsome namesake, the new Betsy McCall Floribunda is delightfully captivating. The color is soft coral overlaid with gold, which pleasantly captures the eye with its simplicity and lasting quality. The 2½ to 3-ft. bush is well clothed with foliage. It has a neat habit and an abundance of slender buds and cupped flowers. The flowers generally appear in airy clusters and occasionally on individual stems. They keep very well and are delightful when used in small arrangements and bouquets. The plant has many of the characteristics of its internationally famous parent Fashion. In hardiness and vigor it equals Fashion, while in color it differs enough to be an exquisite companion. (Pl. Pat. #1603.)

Golden Masterpiece & 3 Other Giant

The Million-Dollar Rose!

(Right) The Largest Yellow Hybrid Tea Rose in Existence! The graceful flowing lines of the long golden buds catch the eye immediately. As they mature, an occasional blush of red caresses the edges of the slender, $1\frac{1}{2}$ to 2-in buds. Throughout the entire season they unfold slowly, giving way to majestic, high-centered flowers of rich golden yellow, carried on long, sturdy stems. Imagine a plant with constantly repeating, radiant blooms that often reach $6\frac{1}{2}$ to $7\frac{1}{2}$ in. across, with a full but open center. Even before these magnificent flowers appear, the bush adorns itself with nearly perfect, glossy green foliage. Its extremely pleasant old-Rose fragrance will fill your garden. Perfect for cutting. No matter how many Roses you already have, or what colors they may be, you need Golden Masterpiece. (Pl. Pat. #1284.)

HERE'S WHY

*"FALL is the
BEST Time to
Plant Roses!"*

• Roses planted this fall give better results because by spring they are well established and make a healthy, natural growth. The roots are never completely dormant and some development will take place during winter whenever the soil temperature rises a few degrees above freezing. The benefit to you is earlier, larger blooms next year.

Twilight

**New Unusual Color!
Lavender-Lilac!**

(Left) A lovely new pastel tint of lavender-lilac with a light silvery reverse. Twilight is one of our new series of lavender and lilac-shaded Roses, which we have been developing from the Grey Pearl and Lavender Pinocchio strains. The bud is pointed, and the flower opens gradually to a high-centered bloom of average size, with moderate fragrance. The pastel tints of the two tones make this a perfect specimen for formal and informal arrangements, for both professional and amateur arrangers. Flowers are usually borne singly, on 12 to 15-in. stems. The plant grows 20 to 24 in. high and has excellent foliage of deep, dull green, very neat and decorative. This variety seems to show its best color under normal rather than extreme conditions. As a novelty it is outstanding and also as a further advance toward the blue Rose. (Pl. Pat. #1434.)

(Above)

This large pink Hybrid Tea is a shade much sought after. Pointed, ovoid buds open up to delightfully fragrant, 5½ to 6-in. flowers. These immense, high-centered blooms are a delicate pink suffused with yellow, keeping their vibrant, refreshing shade to the finish. The foliage is clean and rugged. Contentment is disease resistant and very prolific, both in hotter parts of the country and in more temperate areas. We consider it to be one of our better Hybrid Teas in the pink color range. It is easy to take care of and makes an excellent show Rose. The delightful fragrance and color can be enjoyed all summer long. Extremely hardy, this new Rose will fill your garden with beauty from spring to frost. You will be proud to show it off! (Pl. Pat. Applied for.)

Konrad Adenauer

(Right) This beauty captured the eye of everyone and actually stole the show from a display including the largest assortment of flowers ever exhibited. Spectators were held spellbound by the huge, pointed, dark red buds that open ever so slowly to a blood-red . . . and finally to a darker shade of red that reflects a luxurious velvety sheen! Blooms freely during the entire season . . . and the plant itself is extremely healthy and vigorous! Proud and upright, this hardy beauty grows on a strong stem. The high-centered form and slow-opening characteristics . . . plus the dark red color and outstanding fragrance have actually sky-rocketed this unusual Hybrid Tea into the class of a Show Rose! If you want your Roses to be noticed and complimented, you'll insist on having Konrad Adenauer in your garden. (Pl. Pat. #1452.)

New Yorker

THE **BEST**
RED ROSE
OF ALL TIME!

(Right) The universal appeal of the Red Rose is justified in New Yorker. It displays immense blooms of resplendent scarlet with dark overtones of a rich velvety hue. New Yorker, the epitome of Red Roses, dresses itself in red from beginning to end, starting with the new shoots of bright red. Buds of perfect form and texture open slowly to tremendous, fragrant, sparkling red flowers—often measuring $6\frac{1}{2}$ in. across. Unlike most red Roses, New Yorker's sparkling color does not fade but *stays* a deep rich red until the last petals wither and fall. Not only is the color long lasting and sun resistant, but the bushes are also upright and vigorous. Height about 3 ft. Hardy and healthy, they produce a continuous succession of bloom from June right up until frost. New Yorker vies for honors in many Rose contests, where it is a favorite of both exhibitors and visitors. (Pl. Pat. 823.)

WHITE SWAN (Left)

A fine exhibition variety of pure white, with upright bush, which is rare in a white Rose. Long-pointed, graceful buds of alabaster-white open slowly to dazzling, stark white blooms up to 4 in. across. The elegant, high-centered flowers are produced freely all-season long on 2-ft. stems, enabling you to enjoy them in your garden and in bouquets. White Swan has ample, dark green foliage that is disease resistant as well as restful to the eye, providing a beautiful accent for the blooms. Its pleasing Rose fragrance, though not dominant, is very effective. The 3 to 4-ft. bush, with long sturdy canes, is vigorous and requires little care. It will stand up under adverse conditions and bloom freely all season long, year after year. Good white Roses are rare; don't overlook this one. A real prize, especially for those who enjoy exhibiting in Rose shows. (Pl. Pat. #1115.)

Diamond Jubilee (Left)

The warmth of glowing buff-orange flowers and old Rose fragrance make Diamond Jubilee the attraction of many a garden. A Rose of surpassing loveliness on a most pleasing plant. Winner of the All-America Selections Award, Diamond Jubilee has firm, long-lasting, high-centered blooms 5 to 6 in. across, borne on long graceful stems that make it excellent for cutting. These exquisite flowers are slow opening, and they last exceptionally well when cut. The $3\frac{1}{2}$ -ft. plant has upwards of 30 to 40 double, shapely flowers with heavy-textured petals. Throughout the season this hardy bush adorns itself with dark green, decorative foliage.

The constant succession of flowers is held erect on long stems. Diamond Jubilee is perfect anywhere in your garden. (Pl. Pat. #824.)

Diamond Jubilee

Seedling of a Famous Parent! PEACEFUL

(Right) This delightful, full Rose reaches about 5 in. across. The bright cheerful color of the bud gives only a hint of the glorious latent beauty that is revealed in the color of the full-open bloom. Large, ovoid buds open slowly and when only half open the light coral outer petals that are suffused with pale apricot bend slightly revealing the luminous deep coral-rose-pink of the inside of the petals. This bicolor effect is achieved simply and with amazing clarity. The tip of each petal reflexes slightly as it opens and the deeper shade of the inside of the petals makes a most attractive pattern against the lighter reverse. The large, fully open flower is partially cupped and supports about 50 luxurious petals, while retaining the same pleasing color only slightly less intense in tone. Peaceful is an exceptionally strong, vigorous plant reaching a height of $2\frac{1}{2}$ to 3 ft. (Pl. Pat. #1599.)

Hybrid Teas That Will Make

Mardi Gras Gold Medal Winner, Baden-Baden, Germany!

(Left) Mardi Gras is as exciting and gay as the festive season it celebrates. The bud is very dark red, and the flower keeps the full rich color. As the bud opens, the high center gradually unfolds and the outside petals reach to more than 5 in. in diameter, with a deep sparkling red color at the finish. The flowers are borne freely and the plant thrives as well in hotter climates as in the rest of the country. Pleasing Damask or old Rose fragrance. The 3½-ft. bush extends long, strong, vigorous canes and stems that make it excellent for cutting. An abundance of healthy, attractive foliage forms a perfect background. (Pl. Pat. #1139.)

Mojave (Below, Right)

All-America Award Winner! The dominating color in Mojave is apricot-orange . . . a glowing radiant orange, highlighted with other warm tints of nasturtium-red, scarlet and vermilion. The richly colored bud of Mojave is long and slender; the large, double flowers have about 25 petals and are pleasantly fragrant. Nearly every beautiful bloom is borne singly on a long, straight stem, which makes it a perfect Rose for cutting. The plant is tall and upright, so full of vigor that it produces a continuous succession of blooms from early spring until late fall. It is covered with large, glossy, handsome foliage. Mojave is a descendant of that earlier famous All-America Rose, Charlotte Armstrong, and has shown the same ability to adapt itself to all climates and Rose-growing areas. (Pl. Pat. #1176.)

The Grandiflora Rose. 1955 All-America Winner! A lovely new color and a new class as well, for this charming ruler of rosedom is the first of the new Grandiflora class, named for its abundance of flowers combined with the magnificent qualities of the Hybrid Tea. A subtle and breathtaking blending of soft carmine-rose and dawn-pink, majestically set off by deep green, heavy-textured, glossy foliage, abundantly clothing the entire bush to the ground. Exceptional vigor and remarkable disease resistance insure healthier, more luxuriant growth all season long. Blooms are borne on long, almost thornless cutting stems. TAWNY GOLD

(Right) The intriguing tawny gold color outshines everything around it! Flower arrangers love the tantalizing color, which blends buff, bronze and gold in an enchanting way. And the petals acquire a quaint frilled edge which adds to the charm of the open bloom. Two or three blooms fill a room with their fruity perfume. Tawny Gold lasts a long time both on the plant and indoors. Few Roses can compare with this new gem. Holly-like foliage is another one of Tawny Gold's good points. SEE WHAT FALL PLANTING DID FOR US!

These Roses in our display garden were planted in the fall. Notice the larger blooms, healthier foliage, sturdier plants.

IT CAN DO THE SAME FOR YOU! PLANT NOW!

A beautiful clear pink Rose that veritably sings out its exquisite color and fragrance. The flowers are of the favorite high-centered form, well filled with petals, opening gradually from the slender deeper pink buds to the fully open blooms of lovely self-pink. Although the flowers have Hybrid Tea shape and are as large as the average bloom of that class, the production is almost as free as a Floribunda. The plants are excellent for garden decoration and the blooms are outstanding when used in the house. The bush is of medium height, reaching 20 to 24 in. Foliage is a clean olive-green color. (Pl. Pat. #1541.)

OPERA (Left)

Opera was the sensation of France in 1948 when it was awarded a Gold Medal as the most beautiful Rose in that country where beauty reigns supreme. Among other achievements are awards given it in this country as well as Gold Medals in London, Geneva and Bagatelle. The long slender buds of scarlet with golden yellow at the base are a delight. Magnificent 6-in. blooms of flaming light scarlet with buff-yellow on the reverse cover the plant all summer. The general effect is airy and bright. These high-centered blooms have slightly quilled petals of extra-good substance and are borne on long, strong stems appropriate for cutting. Gorgeous blooms are fortified by a vigorous upright bush and quantities of green leathery foliage. (Pl. Pat. #1017.)

PEACE

(Bottom, Left Corner)

Peace takes a distinguished place among yellow Roses. The ovoid buds are golden yellow, etched with pink. As they open, they change from canary-yellow, to pale gold, to iridescent cream. Petals are edged apple-blossom-pink, which deepens as the glorious 5 to 6-in. flower slowly opens. Peace brings ethereal beauty to your garden all summer long. The petals roll gracefully outward to form a double, lasting flower with a high-centered golden heart. The plant is as superior as the bloom—hardy, vigorous, healthy. Flowers are borne on heavy stems. (Pl. Pat. #591.)

A SONATA. Cochineal-red in spring and fall, in summer lightening to unusual hues of deep lively pink. Outside of the petals is several shades darker than inside. The large flowers are perfectly shaped, opening gradually from long, pointed buds. A continuous bloomer, resistant to both sun and heat. Very hardy, vigorous, upright growth. (Pl. Pat. #732.)

B MANDALAY. Long-pointed, golden yellow buds unfold gracefully to large, high-centered blooms. These golden yellow flowers open slowly and perfectly and have as many as 40 unfading petals that are firm and long. Flowers up to 6 in. across. The ample, heavy foliage is very dark green. The 3-ft. plant is very free blooming. (Pl. Pat. #775.)

C REX ANDERSON. An outstanding exhibition Rose of delicate, lovely ivory-white... perfectly formed, slow-opening. Its perfection of form and color simplicity are a dramatic contrast of great loveliness. 2 to 2½ ft.; disease-resistant foliage. Vigorous, upright growth. (Pl. Pat. #335.)

D VOLCANO. *Really Huge.* These are the only words that describe the tremendous size of the blooms produced on Volcano. Blooms that actually open as much as 7 in. Across! The flowers are a live, glowing cherry-red that seems to lighten the surroundings, and then slowly softens to a rosy pink. A strong, bushy plant with dark green foliage. (Pl. Pat. #951.)

E KATHERINE T. MARSHALL. Grows vigorously with large, open, upright blooms of friendly, warm glowing pink. Bred to hardiness and perfect form. The growth and foliage are equal to the Radiance family. Fruity fragrance. Long fine stems, ideal for cutting. Highly praised in all sections of the country. Height 3 to 4 ft. (Pl. Pat. #607.)

F McGREDY'S SUNSET. Tinted with delicate orange and rich scarlet. Best loved of the Irish Roses. Fragrance freshly sweet; generous when cut, haunting, old fashioned. A 20 to 30-in. bush covered with many blooms. The globular, double, well-shaped flower has 40 petals. Resistant to sun, hot weather and disease. (Pl. Pat. #317.)

G ELLINOR LE GRICE. An exceptionally large, bright golden yellow Rose, that you can depend on for unfailing bloom. Keeps a steady pace, producing full double, 6-in. blooms constantly from June, week-in and week-out until frost. Full ovoid bud of deep yellow, changing to strong clear yellow as petals unfold. Striking in any garden. (Pl. Pat. #917.)

H VALIANT. A bold red with a particularly lovely bud. The bloom is luminous crimson, becoming bright red as it opens. High centered and bold in its color and erect manner. Frequently 5 to 6 in. across, with about 30 tea-scented petals. Bushy, up-right grower. Foliage is leathery, large and dark. The plant grows to a height of 2 to 3 ft. (Pl. Pat. #914.)

I MARY MARGARET McBRIDE. Pointed buds, deep coral-pink, slow opening. The double blooms are large and high centered, with shimmering gold at the base. Each flower has 35-50 petals. The foliage is dark, leathery and glossy. Vigorous and bushy; 2 ft. tall. (Pl. Pat. #537.)

J RUBAIYAT. A brilliant red with a profusion of long, graceful buds appearing early in June. As the buds open, a glorious riot of deep, scintillating crimson is revealed in the very hearts of the blooms. This vivid burst of color is accentuated on the outside of the petals by a tone shades lighter. Height 4 ft. (Pl. Pat. #758.)

K DICKSONS RED. This glowing scarlet-red Rose "has everything" . . . flashing color; large, high-centered form; rich fragrance; abundant, continuous bloom; and a strong, sturdy bush standing the very hottest sun with color undimmed. Dicksons Red will continue to be one of the leading Roses for years to come. Height 2 ft. (Pl. Pat. #376.)

L SERENADE. Exquisite burnt-orange buds and 5-in., brilliant, coral-orange blooms, produced freely on 3½-ft. plants. The edges of the petals are an interesting darker shade. The foliage is a shiny green and nicely balanced on the plant. In addition to being vigorous, the bush has a clean open habit. (Pl. Pat. #852.)

(Above) Rare, indeed, is an unfading yellow Rose . . . especially one endowed with the grace of form, brilliant color and exceptional hardiness of J&P's creation . . . Golden Scepter! Once you see this majestic Hybrid Tea blossoming in your garden, you'll understand why it won highest Rose awards in Holland and England . . . why it has been so highly praised all over America. Early in June, the tall, open plant bursts forth with dozens and dozens of slender, golden yellow buds, which slowly unfurl into large, exquisite yellow blooms. And these high-centered 5½-in. flowers retain their rich color all summer. They are highly desirable for cutting. The dark glossy foliage is very resistant to ordinary ills. The vigorous, 2½ to 3-ft. plant is open and airy in habit. (Pl. Pat. #910.)

★**BETTER TIMES.** Brilliant cerise blooms with long stems. Pronounced and enchanting fragrance. A hardy plant, medium tall.

★**CRIMSON GLORY.** In survey after survey, Crimson Glory has repeatedly been one of the ten most popular Roses in America. It is so beautiful and at the same time so dependable that it deserves a place in every Rose garden. Beautifully formed blooms of deep vivid crimson, held proudly on vigorous bushes. Its fascinating fragrance alone would make Crimson Glory an instant favorite. Voted by far the most fragrant Rose by the American Rose Society. Height 2 to 2½ ft.

★**CONDESA DE SASTAGO.** Two-toned coppery pink inside, golden tint outside.

★**COUNTESS VANDAL.** Acclaimed as the most artistic bloom in rosedom. Copper, bronze and pink, flooded with gold and reflexed with silver. Most widely used exhibition Rose. Very effective in table arrangements. A good plant of moderate size.

★**ETOILE DE HOLLANDE.** Bright red; large; loose; semi-double; fragrant. Vigorous. One of the most dependable and free-blooming older Hybrid Teas.

★**ECLIPSE.** Streamlined and modern . . . these slim tapering buds set a mark in grace and daintiness, often exceeding 2 in. in length! The best all-purpose brilliant golden yellow Rose in all climates! Plants are vigorous, producing abundant bloom.

McGredy's Yellow. Large, bright buttercup-yellow. Exquisite bud and flower. Probably the best known of McGredy Roses.

★**MRS. PIERRE S. DU PONT.** Deep golden yellow, slightly lighter with age; semi-double.

Items Starred are illustrated

★**LYDIA.** A clear, vivid yellow, cup-shaped bloom. Although not a tall grower, this variety is a constant source of colorful flowers. The deep green, glossy foliage is decorative, and the rich clear yellow blooms glitter in contrast. The plant is very hardy, medium tall, and bushy.

★**NUMA FAY.** Very full-petaled; light coral-pink, satiny and fragrant. Free-blooming.

★**POINSETTIA.** Long, pointed, perfect buds; glowing fire-red. Vigorous. Fine for cutting.

President Herbert Hoover. Maroon and orange, two-tone. For years this has been the most popular two-tone Rose. Vigorous; free-blooming; fragrant.

Radiance. Cameo-pink; large, intensely fragrant. Blooms all season, in all climates. Tall.

Red Radiance. Very large; long-lasting; intensely fragrant; clear, even red. Tall.

★**SIGNORA.** Buds warm brownish orange, opening to lighter mandarin and salmon. Blooms are double and very fragrant, on long strong stems. Foliage rich, glossy dark green. Tall, vigorous growth. 30 to 36 in.

The Doctor. Sparkling pink buds. 5 to 6-in. blooms.

★**K. A. VIKTORIA.** One of the daintiest and most delightful of all white Roses. Produces great quantities of pure white flowers all season. Fragrant and long-lived. Height 24 to 30 in.

Frau Karl Druschki. One of the purest white Roses. Very double, very large and long lasting. Noted for its extreme toughness and vigor. Blooms heavily. Can be used many ways . . . informal hedge, mass plantings, large flowering shrub, pillar type against walls, fences.

WHY THE EXPERTS SAY:

"FALL is the IDEAL Time to Plant Roses!"

ASSURES EARLIER,
MORE PROFUSE ROSES NEXT SEASON

Besides the advantages to the plants, there are many conveniences for you. The soil is mellow, easy to work. Prepare it any time at your convenience, and then leave it until the postman delivers your J & P plants. It is then only a matter of a few minutes to put them in the prepared ground.

You can be confident of earlier, better blooms next spring because the plants make new roots in the late fall and early spring . . . will produce blooms almost like an established plant.

Plant Even When Ground is Frozen

Your Roses will be shipped at the proper planting time for your locality. You can plant Rose bushes even when the ground is beginning to freeze, as long as you protect the roots against direct exposure while plants are being set out. Simply keep the roots covered so that they do not freeze while you are planting the Roses. Once in the ground, the plants will be perfectly safe if you follow our simple instructions for normal winter protection.

(Left) Exquisite Ophelia-shaped buds of a translucent light Fashion color, graced by shades of red in the outer petals, make a startling change to graceful, cup-shaped, 3½ to 4-in. blooms of sparkling coral-shell-pink. A suffusion of yellow is present in all of the early stages, until at the very end it finishes a soft shell-pink. This generous, free bloomer has excellent spring and fall flowers that are very fragrant and never fade or lose their sparkle. The bushy, 2½ to 3-ft. plant is strong and compact, with rich green foliage, highly resistant to diseases. The 25-petaled blooms appear in clusters and singly all season. They make lovely bouquets. (Right) Here in the Amy Vanderbilt Rose is a world-wide new color in Roses. The modern sophisticated purple-lilac to lavender-lilac introduces a rich, friendly and daring color for novelty and startling new effects. From early bud to fully opened flower, the color changes slowly from an opulent purple-lilac to a lavender-lilac color and finishes a lovely cool lavender. The 2½ to 3-in. flowers grow in clusters of 4 to 8 individual blooms and are delightfully fragrant. This new color is a great step ahead in the Rose world and is a great challenge to many Rose lovers. Plant it and your garden will be the envy of the neighborhood. (Plant Pat. #1585.)

WHY THE EXPERTS SAY:

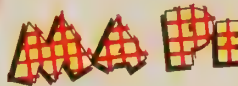

"FALL is the IDEAL Time"

Besides the advantages to the plants, there are many conveniences for you. The soil is mellow, easy to work. Prepare it any time at your convenience, and then leave it until the postman delivers your J & P plants. It is then only a matter of a few minutes to put them in the prepared ground.

You can be confident of earlier, better blooms next spring because the plants make new roots in the late fall and early spring . . . will produce blooms almost like an established plant.

Please Read Following When You Order

IMPORTANT—

**Please
Help Us to
Help You!**

When filling out your order it is most important for all members of the same household to order under one name.

In order to help us keep our records straight please use your address plus your zone number which we have imprinted on the front of the catalog envelope. If for some reason this address should be incorrect, please attach a slip of paper to your order correcting the address.

We are also finding cases where customers are using a borough or a suburb of a city and also the city itself. For example, Bronx and New York City or Germantown and Philadelphia. Again please use your city or borough as imprinted on the front of the catalog envelope.

It would be greatly appreciated if you would help us to see that your orders are sent to you correctly without any delay.

HOW TO REMIT

The best way to send payment is by check, U. S. Postal Notes or by Post Office or Express Money Order. **Do not send stamps or currency** because we cannot assume any responsibility unless sent by registered mail.

SHIPPING DATES

We will send your order at the proper time for planting in your locality. It is not necessary for you to specify a shipping date.

ITEMS NOT LISTED

Any variety of Roses, Perennials or other material which is not listed on the order blank or in the catalog is unavailable for the current season. Plants not listed will be in our future catalogs when available.

PLEASE DO NOT ASK US TO CHANGE YOUR ORDER

We handle thousands of orders within a very short season, and it is impractical to locate individual orders for changes. We want to accommodate our customers but it is impossible to find any particular order quickly during the shipping season.

9 World-Wide Awards

(Left) Fashion is definitely the finest Floribunda Rose ever created! As the oriental-red buds gradually open, they are transformed into exquisite miniature Hybrid Tea-shaped blooms up to 3½ in. across. At the same time a gradual color transformation occurs as the buds blend into a lighter, luminous coral suffused with gold. Graceful, wavy petals and a rich display of golden yellow stamens add new interest to the open flower. Enchantingly fragrant, Fashion blends well with all its garden neighbors. Its sparkling colors are handsome in a group planting in front of shrubs or evergreens, as a hedge leading to house or garden, around the house or simply as a colorful accent in your garden. There is no other Rose like it. The bushy plant grows about 2 ft. tall and blooms profusely all season long. (Pl. Pat. #789.)

1955 Winner,
All-America Award!

(Left) A pert new Floribunda with masses of tangerine-red buds which open to a sharp coral-orange-vermilion and finish a pink-coral, almost like Fashion. The unusual coloring is the result of a crossing of Geranium Red, which has blended and softened this red to a very lovely new coral-rose shade. Although it does not have the same Geranium Red fragrance, Jiminy Cricket has a distinctive, pleasing Damask scent. The bush is covered with glossy green foliage; young foliage is glossy bronze, attractive even without flowers. The color never blues or becomes unpleasant, and the 3½-in., cupped flowers are intriguing in the garden and when cut. The upright growth of the bush makes it ideal for hedges and for massing. It grows to 4 ft. in height and blooms from June until frost. (Pl. Pat. #1346.)

HERE'S WHY
"FALL is the BEST Time
to Plant Roses!"

BIGGER BLOOMS

Getting your plants started this fall gives them a chance to become established before the first blooming period. Then they bloom as generously as older established plants.

EARLIER BLOOMS

On the very first warm day next spring your new plants will be ready to start growing. Earlier flowers than you would get from spring plantings are a certainty.

HEALTHIER PLANTS

Rose plants set out now will be able to get their roots well anchored by spring. They are vigorous and disease resistant right from the start of the new season.

GARNETTE

(Right) Surely everyone has seen Garnette at flower shows throughout the nation. These petite red Roses are very popular for corsages. We believe there is not another Rose on the market which has more perfect form or better lasting qualities when cut for indoors. Actually it will last from a week to 10 days. Its garnet-red "sweet-heart" flowers are borne in clusters of 15 to 20. Abundant masses of crinkled holly-like foliage on an 18-in. plant. For the foreground of your Rose beds.

WHY

"FALL is the BEST Time to Plant Roses!"

You will have better, earlier blooms next spring if you plant your Roses this fall. This has been proved time and again by experts and amateurs alike. By getting into the ground late in the fall, the

plants become established and ready to grow at the first sign of mild weather in the spring. Fall planting enables you to have better, healthier Roses in your garden several weeks longer. More convenient, too, to get Roses planted before the big rush of other spring gardening work.

Summer Snow

SUMMER SNOW (Above)

Fabulous clusters of fluffy white blooms all season, from June to late fall. Starts early with a magnificent display that covers the plant with masses of 2-in. blooms . . . 12 to 15 on each cluster. Sweet, elusive fragrance. Then throughout the summer new flowers develop as fast as the old ones fade, providing a continuous display for mass planting or beds. Plants are about 20 in. tall, with light green foliage. One of the most popular Floribundas. (Pl. Pat. #416.)

12 for \$15.60; 25 for \$30.00

GERANIUM RED (Below)

Imagine a Rose that looks like a geranium and has the same spicy fragrance! The 4-in., camellia-like flowers of vivid spectrum-red border on the scarlet of the old-fashioned geranium. Heavy fragrance of rose-geranium. The very double blooms, with about 50 petals, are borne in clusters. Buds are dark oxblood-red, and the tumbled pattern of inner petals shows a brighter color in lovely contrast to the dark buds. Vigorous and hardy; 2 ft. tall. In a class by itself because of its unusual color and utterly amazing geranium fragrance. (Pl. Pat. #811.)

CIRCUS (Left)

Circus is a unique addition to the illustrious All-America family. It is known as a "multicolor" and is the first of this type to be selected for an award. The ever-changing colors of Circus vary from rich yellow and red in the bud to orange-buff, flushed with appleblossom-pink, and usually end with a gay flourish of red as the flower opens fully. The plant is full and well rounded, low to medium in height. The large, glossy foliage gives the plant a well-tailored appearance even between blooming periods. The gay, bright colors, changing and shading with infinite variety, suggest the excitement and activity of the "Big Top." (Pl. Pat. #1382.)

Morning Dawn

MORNING DAWN *(Above)*

As refreshing as the new day is this new color in Climbers. The large, 5-in. flowers are a dewy, silvery rose flushed with salmon, so it is a warm soft pink in all stages. A suffusion of yellow at the base of the petals only serves to enhance the Rose. One of the most fascinating things about this Climber is its unusually large buds, which are about 3 in. across and of the same color and fine texture as the full blooms. Magnificent, fully double blooms with sweet, spicy old Rose fragrance appear singly and on very long stems. Attractive shiny, dark, holly-like foliage decorates this 6 to 8-ft. pillar. You will be delighted with its performance and enchanting color. (Pl. Pat. #1447.)

NEW! ROYAL GOLD

(Left) This brand-new, vigorous, easily managed Climber that blooms the first year it is planted is the yellow Climber you have been looking for! Plant it and see just how good it is. Ovoid buds open to gorgeous, golden yellow blooms with up to 45 shiny petals. These richly colored, enduring flowers reach up to 4 in. across. With the blooming habit of a Floribunda, the flowers are carried in clusters of three to seven and also singly on stems adequate for cutting. The abundant green foliage is of moderate size, borne on the 4 to 5-ft. canes that will develop the first year. Three to four canes will be produced each following year until the plant reaches its full, majestic height of 5 to 7 ft. Characterized by dependable recurrence of bloom and strong growth, this new Pillar Rose never tends to get out of bounds. The color is rich and durable, yet subdued and extremely pleasing. A moderate fruity fragrance surrounds this well-balanced Climber. This brilliant, adaptable plant will look well in any location where a Climber is appropriate. Place it where it can be seen so that its full beauty can be realized. Let it beautify your garden, home or garage. If you plant it this fall it will become well established by spring and you may enjoy it to the fullest. (Prop. Rights Reserved.)

Spectacular

(Below) At last, the orange-red color that has been so popularly received in Hybrid Teas and Floribundas has reached the Climbers, where it is particularly effective in the breathtaking new Climber, SPECTACULAR. As its name implies, this new Everblooming Climber leaves a lasting impression when it is seen on a full blooming plant. Although the spring blooms alone are ample recompense for the proud owner, there is always a strong, rich fall bloom as a wonderful bonus. The 6 to 7-ft. canes which continue to greater heights the next year are indicative of its hardiness and vitality. SPECTACULAR carries its enchanting orange-red to spectrum-red clusters for a long time . . . and each one of the 4-in. blooms is infused with vigor and freshness unmatched by any other Climber. As if that wasn't enough, its alluring color does not fade even in 90° and 100° temperatures. We are particularly pleased with this new Climber and feel it will make a lot of friends. Don't miss the opportunity of having it in your garden this year. It will dress your garden and home with its exciting color for years to come. (Pl. Pat. #1416.)

Gladiator

Gladiator

(Above) Here's the new champion of everblooming Climbing Roses! Like the gladiators of old, it has incredible endurance . . . blooms and reblooms all season. You'd expect to find such huge blooms only on the finest Hybrid Teas; yet Gladiator is noted for its immense, 5-in., high-centered flowers . . . unusually large for a Climber!

But the huge size is only part of the story! When you see the brilliant rose-red color—a subtle blend of the brightest scarlet and the softest red—you'll know why this gorgeous Climber is in a class all by itself. You'll be absolutely thrilled when scores and scores of exquisite flowers burst into bloom on the 8 to 10-ft. plants, making an irresistibly beautiful picture in your garden, on your fence, around your house! And Gladiator imparts a delicate, pleasant fragrance that is really delightful. The large, disease-resistant foliage is an impressive dark emerald-green and creates a decorative effect by itself. Yet so hardy is this Climber that it withstands the battles of zero winter climate. (Pl. Pat. #1524.)

blooms. Almost thornless, with long, beautifully decorative, bronze cutting stems, GOLDEN SHOWERS makes exciting cutflower arrangements. Trained as a Climber, it will attain a height of 6 to 8 ft. and will reach up and along a trellis or fence, putting forth an unmatched display of golden color. Or it can be shaped as a bush, with thrilling, eye-catching, gleaming golden blooms that invite picking. This winter-hardy, everblooming Climber blooms from earliest spring continuously through until late fall. Highly resistant to Rose diseases. (Pl. Pat. #1557.)

Climbing CORAL DAWN

(Above) At last! An Everblooming Climber with a CORAL-PINK color! Yes, a sparkling deep coral-pink . . . the color that has become so popular in bush Roses, but has been unavailable in a Climber. The color really lasts . . . from the dainty pointed buds to the slow-opening, graceful, long-lasting, 4½-in. blooms. The color is Coral Dawn's main attraction, but it is a superior Climber in every other respect, too. It bears clusters of three to twenty buds, which freely decorate the plant all summer long. The lustrous, dark green foliage is disease-resistant and sets off the coral-pink flowers perfectly. This new Climber is very easy to grow and does extremely well in all regions. (Pl. Pat. #1117.)

DELICIOUS *Full Size* QUICK-BEARING FRUIT ON *Dwarfer* FRUIT TREES!

41

Why these trees are ideal for you!

Now you can plant Apple trees in even the smallest garden plot and enjoy them all your life without ever crowding out your roses, perennials or other flowers. These amazing midget trees will bear fruit very young. When four years old, they will be in full bearing, with larger, more colorful Apples than you would get from larger trees . . . yet these amazing Dwarfer Dwarf trees grow only 5 to 6 ft. tall and do not interfere with other plants growing around them. Early in the season every branch will be covered with lovely fragrant blooms. So profuse, so handsome, they are a garden decoration in themselves. Ideal for the modest garden where you don't have room for large fruit trees. Trees may be planted as close as 6 ft. apart. Unless there are other trees nearby, plant two or more varieties to be sure of correct pollination.

RED DELICIOUS (Left) Large, dark red with firm, crisp flesh of excellent quality and flavor. It bears regularly.

The tree is perfectly hardy. This favorite is splendid for eating. Red Delicious is the best-known Apple sold at fruitstands.

YELLOW TRANSPARENT (Not illustrated) One of the finest of the early yellow Apples. Usually ripens the first week in August. Slightly acid flavor.

LILACS

These gorgeous French Hybrids far surpass all others. Larger florets, richer colors, broader spikes, more to a cluster. Every variety is faster growing and younger blooming. Fragrant beyond description. Own-root not budded, so wild sucker growth will never bother you. For infinite long life, rapid growth and every-year bloom, these strong 3-yr. plants are worth ten times as much as the old-fashioned varieties.

Many Start Blooming Next Year!

THOUSANDS of these plants have already set flower-buds this summer. Many bloomed last May. You may have some flowers next spring—you'll have PLENTY the following year, and EVERY YEAR! Grown the longer way at higher cost (own-root, not budded, so wild sucker growth can never come)—for long life, rapid growth, and every-year bloom. Worth ten times as much as old-fashioned kinds.

Loveliest Kinds and Colors. These Six Pictured

- d Paul Thirion. Bright rich red buds open to an intense rosy claret, revealing beautiful double flowers in enormous clusters. Free bloomer.
- d Katharine Havemeyer. A gorgeous mass of double, rosy lavender flowers, very full with immense spikes. A soft shade of the lovely lilac color.
- s Lucie Baltet. The pinkest of all Lilacs . . . blooms freely . . . with immense single flowers, stately and tall. Blooms in huge clusters that make a striking display in the garden, shrub border, or as a single specimen plant.
- s President Lincoln. Single flowers $\frac{3}{4}$ in. or more across, purplish blue in bud . . . opening to a true blue. It is considered the best of the blues. Very vigorous and early in bloom.
- d Paul Hariot. Rich glowing purple buds opening to a true royal purple. Large, double flowers. Considered the deepest and darkest of all. The depth of color and rich texture make this a favorite everywhere.
- d Ellen Willmott. Extremely prolific, immense, double flowers of purest alabaster white. Large branched panicles; round flowers. Rated as excellent. Late bloomer. A dependable free-blooming white.

JACKSON & PERKINS
Christmas
Rose (Helleborus niger alstrifolius)

When Plant Becomes Established,
Blooms Outdoors
from October to March

Roses in winter! Not real roses, of course, but the much-prized Christmas Rose. Actually blooms in late fall, at Christmas and until spring. This variety (*Helleborus niger alstrifolius*) is superior to *H. niger*. Grown by J & P from divisions of flowering plants, it will become established quickly and will bloom in the fall.

Blooms All Winter on Mild Days

Even when there is snow on the ground, it takes only a couple of mild days for this miraculous plant to produce its glacier-white blooms. The lovely 5-petaled flowers are 2 to 3 in. across, with a center of yellow stamens. Strong 6 to 8-in. stems hold blooms above the low, leathery foliage.

Beautiful Masses for Low Plantings

Suitable for a protected place in front of evergreens or shrubs because of its rich low foliage and unusual flowers when nothing else is blooming. Set where it is partially shaded in summer but receives winter sun, the Christmas Rose will form a broad low mass of handsome green. Once established, it should not be moved.

The Winter Wonder Flower!

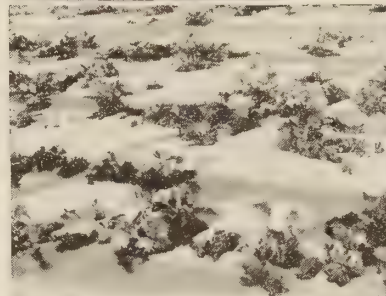

Blooms All Winter 6 to 8 in. high

The Story of the Christmas Rose

Flowers sprang up from the tears of a little shepherdess who wept because she had no gift to offer the new-born Christ Child. As she knelt in adoration at the crib, a delicate pink appeared in the center of each flower where His blessed hand touched it. And so was born a flower that had never existed before. To this day the Christmas Rose blooms most abundantly at Christmas Time.

Sept. to Frost
4 to 4½ ft.

ASTER, ADORABLE (Above)

A deeper, clearer pink color, very rare in fall flowers. The buds are like small reddish rosettes, opening into large, many-petaled flowers in enormous clusters. This will be one of your favorites once you see its masses of bloom in your fall garden. The entire plant will glow with a rich pink continuously from Sept. to frost. The foliage is clean and dark, and the vigorous plant is 4 to 4½ ft. high. Strong and compact in habit.

**SHASTA DAISY, ESTHER READ (Left)**

One of the plants easiest to grow for a prim white mass effect. Blooms continuously and freely from June to Oct., producing plenty of flowers for cutting. Double flowers on 18-in., strong stems. The petals are packed in close layers, making a large, magnificent bloom, flat topped and symmetrical. The plants require a little protection in colder areas and do best when divided every two years. Almost entirely free from insects and disease, and very useful for all-summer effect. Indispensable for white flowers all season long.

SUPER-GIANT VIOLETS!

Spring and Fall Violet, Royal Robe 9 to 12 in.

VIOLET, ROYAL ROBE (Left) Magnificent, extra-large flowers of lustrous, deepest violet-blue. So intensely fragrant a few plants will send their delightful perfume hundreds of feet away. Ideal for corsages, boutonnieres, bouquets. The rugged plants have sturdy foliage and bloom abundantly in early spring, also in fall. The large, superb flowers open wide, often more than 1 in. across. Their stiff, erect stems grow up to 8 in. or more. A protective mulch of leaves or straw is advisable over winter. Ideal for those difficult, partially shaded spots where other things will not grow well. Once established, it blooms more freely year after year.
65c each; 3 for \$1.75; 6 for \$3.25

VIOLET, ROSINA (Not illustrated)

A mass of fragrant pink Violets in May and again in late August. This variety is widely loved for its color and sweet scent but is hard to find. Ideal for bordering or ground-cover. Grows best in rich soil and partial shade. May lose its foliage in winter if not given a little protection but will come back and bloom the next spring. About 10 in.

75c each; 3 for \$2.00; 6 for \$3.75

VIOLET, WHITE WONDER (Not illustrated)

Imagine a dazzling glacier-white Violet! Each plant covered with hundreds of flowers. Individual bloom is enormous, with a pale lavender center beautifully veined. Foliage luxuriant and shiny, hugging the ground tightly, with each flower held crisply above the foliage so that the blooms show to best advantage. A fine plant for rock gardens and foreground of flower beds. 75c each; 3 for \$2.00; 6 for \$3.75

6 for \$4.25

ACHILLEA, GOLDEN PLATE

(Left) Huge, rich buttercup-yellow flowers 8 in. across, on graceful 4-ft. stems. Blooms from June to frost. It forms a plant about 2 ft. in diameter, with 10 to 15 flowering stems. Unsurpassed as a cut flower. The Achillea blooms are often used for dried bouquets that last for many weeks indoors. Has lovely foliage . . . ideal for flower arrangements. It does well in a rather dry location with full sun.

\$1.00 each; 3 for \$2.50;
6 for \$5.00

RUDBECKIA, WHITE KING

(Above) The classical white flower has a handsome center cone of a brown-green color, flecked with orange. The white petals have a spread of 4½ in. The plant is sturdy, upright and full and grows about 40 in. tall. Will bloom from July to frost. A hardy, showy plant for ordinary soil, requiring no special care.

PEACE (Above)

Here is a handsome variety that is just as desirable as its name. Individual florets are $3\frac{1}{2}$ to 4 in. across. The face of each floret is a clear white with a lovely cream bee. Blooms in June and July. If cut back immediately when it is through blooming, the plant will quickly give another crop of giant flowers. A beautiful variety to plant with other colors. Reaches a height of 4 ft.

Glorious

DELPHINIUMS!

**Hardy Northern
New York Strain!**

They Grow Over 3 Feet Tall!

GUARANTEED TO BLOOM!

to provide trim and sturdy stalks not easily blown down by the wind . . . yet not cumbersome and stiff in bouquets. You will find that J & P Delphiniums do not need staking in most localities.

This Northern New York strain reaches these ideals and still has kept all the exquisite grace and charm of Delphiniums at their best. Plant them in threes, fives or dozens for dramatic color effects.

GAYETY (*Not illustrated*) A dainty color that is most pleasing—pinkish lavender with outer petals blue. Unique color display that will remind you of "lavender and old lace." Side shoots prolong the blooms for several weeks. 5 ft. tall.
85c each; 3 for \$2.25;
6 for \$4.25

PINK GLOW (*Above*) A large-flowered variety with the new dark rose-pink florets with lilac shadings. The flowers have white eyes. Blooms in June and July and again in August and September if properly cut back. 4 ft. tall.
\$1.50 each; 3 for \$3.75;
6 for \$7.50

FREEDOM (*Above*) White, with black-and-white bees. The long-lasting spikes are set with large, double florets and bloom again in late summer if cut back after the early crop. Will "pep up" any garden, for it has real character. This variety is in great demand because it is an excellent color to accent a perennial border. Stunning in all-white bouquets or in combination with bright colors. 4½ to 5 ft. tall. Striking in groups or with other Delphinium hybrids.
85c each; 3 for \$2.25;
6 for \$4.25

DELIGHTFUL (*Above*) Deep blue. The rare, real all-blue, in the darker shades so hard to get. Particularly effective because it is so good with other colors. It furnishes a glorious background for lower-growing flowers. 5 ft. tall. This is what you have in mind when you speak of dark, rich "Delphinium-blue." It is a glorious color badly needed in most perennial plantings. Be sure to cut back the plant after its first blooming period so that it will repeat later.
85c each; 3 for \$2.25;
6 for \$4.25

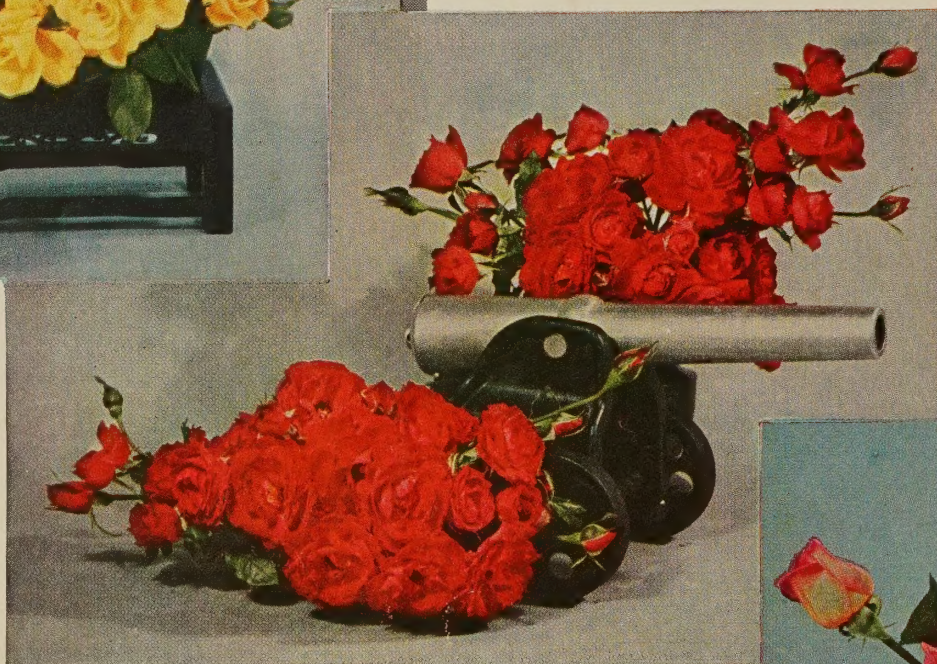

GLORIOUS (*Right*) Deeproyal purple, by far the darkest and richest of all Delphiniums. This is truly a breath-taking color. The long, beautiful spikes are all out-at-once in blooming; no shattering until the last buds are fully open. Stems are wiry and strong, holding the majestic spikes on proud display. The plant repeats quickly with its colorful bloom spikes and is always perfectly hardy. A color needed for accent, no matter what other varieties are grown. 4½ ft. tall.
